Alert! Kansas City Identity Evropa Fascists Identified

This article is republished, with permission, from It's Going Down.

Identity Evropa posters came down in Kansas City and Wichita, Kansas less than 24 hours after they went up. The fascists responsible are Gabriel Wilson (@gabrielofkansas) and Katy Galloway (@NordicPlains), both of Salina, KS, and were identified from their road trip photos in social media posts. Gabriel is a carpet cleaner for A-Plus Chem-Dry & Building Maintenance.

These little fascists on the prairie were seen holding hands and carrying the Identity Evropa flyers in a tweet mentioning IE and locating it in Kansas City. The photographer was probably one of their parents, and also their driver for this futile road trip through eastern Kansas.
